

IEW® (Impact Edged Weapon)

BEYOND A KNIFE

IEW® (Impact Edged Weapon) KIT Instructor Certification Course©

5-Year Certifications

COURSE PROFILE: The *NEW* IEW® is the most progressive, concealable Impact weapon ever developed. First and foremost designed as a powerful impact weapon, its utility value as a quality tactical knife with a 440C blade, G-10 & carbon fiber handle is also impressive. The training program provides national certification and instructs low profile, offensive, incapacitating blunt force trauma techniques with its strikes points. The forward/rear strike points deliver high energy fluid shock wave transfer to soft tissue in the thigh or arms. The course was designed and developed to provide instructor certification to address national liability issues, remove high profile police batons and replace with a low profile approach to in-close use of force conditions. The IEW® was designed by one of the nation's leading use of force experts and Instructor-trainer, *Thomas J. Archambault*. A pioneer-trainer in the impact weapons field since the late 70's.
