

IS YOUR DEPARTMENT PREPARED FOR A
FERGUSON, MISSOURI TYPE INCIDENT?

This course addresses Civil Disturbances HEAD-ON

IMPORTANT – Please deliver to Training Officer

With civil disobedience events in numerous venues escalating out of control, it only takes one-incident for your department to be embroiled in a national media event and costly civil disturbance. Training in this area has never been more important for departments nationwide. Get your department trained, updated and protect your officers and citizens in this cost-effective program.

We are now scheduling the attached program nationally for 2015 for contracts and host locations.

The design, development and implementation of this progressive program was thoroughly researched and addresses key issues such as: tactical planning; staffing & mutual aid responses; environmental logistics; control of crowds; proper & judicious use of less lethal weaponry; chemical agents; and officer safety equipment is based on years of actual incidents that have occurred.

For any questions, contact Thomas J. Archambault at 1-888-785-0100; or e-mail at tja1@tactical-training.com
